

PRODUCT DATA SHEET

CEILING SYSTEM CHRYSALIS

CHRYSLIS

The CHRYSLIS exterior PP ceiling system is an exterior system that is designed to accommodate panels of varying sizes and shapes with a wide variety of finish options. The medium gauge aluminum used with the CHRYSLIS ceiling system, combined with the continuous suspension system, will never compromise structural rigidity.

FEATURES

- 0.125" aluminum panel face
- 3/4" reveal in all directions with reveal cover strips
- Non-progressive installation
- Large scale panels with amazing finish results

BENEFITS

- Strong enough to resist wind load
- Water-tight or rain screen design
- Secure and reliable
- Flexibility in design and function

ALUMINUM

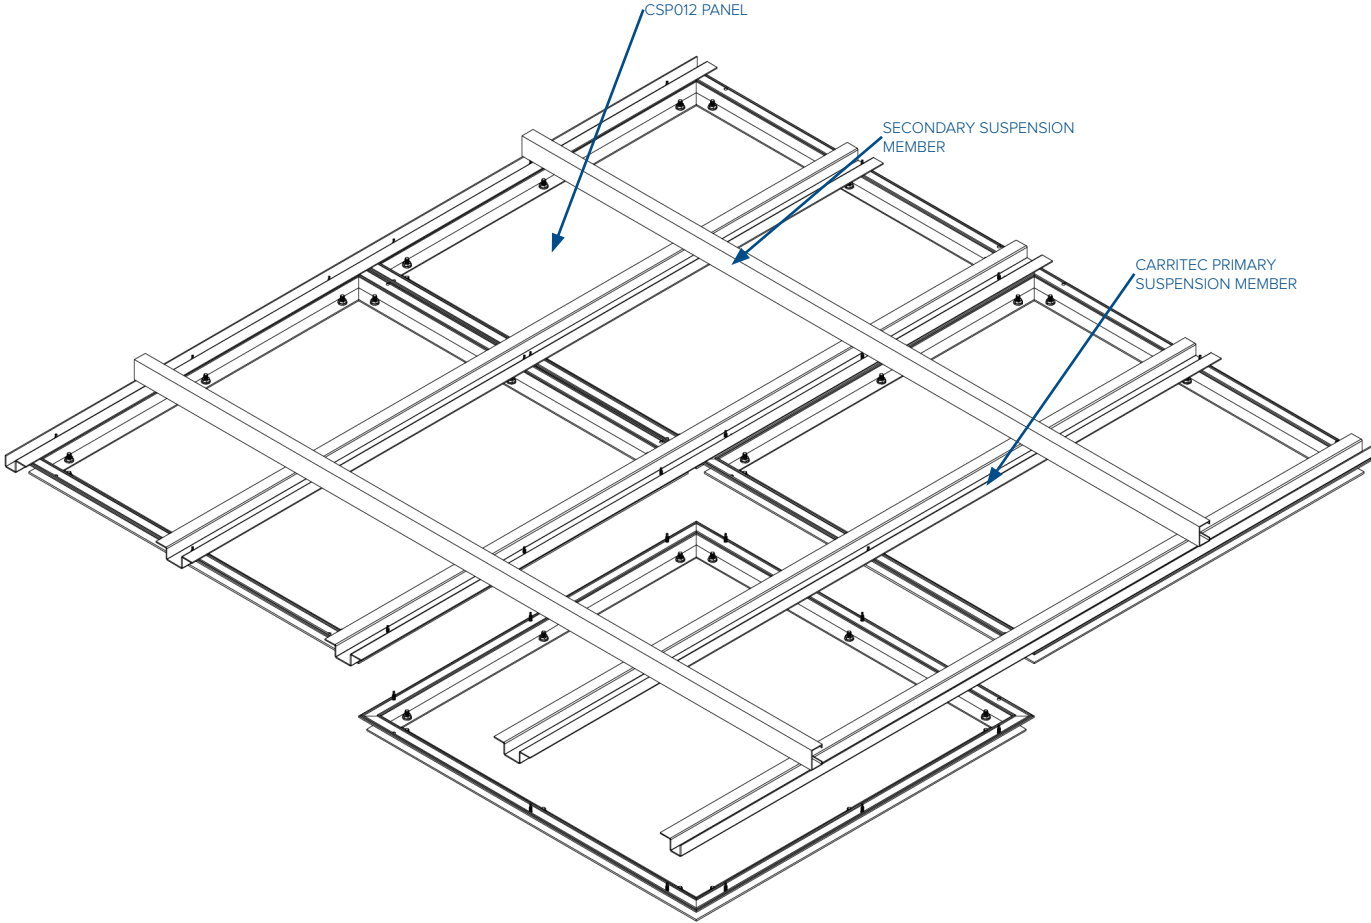

Material to comply with ASTM B 209, alloy and temper recommended by aluminum producer and finish requested, with strength and durability equal to or greater than the properties of the 3003-H14 for painted or laminated finishes and 5005-H14/32 for anodized finish.

Thickness: 0.125"

FIRE RATING

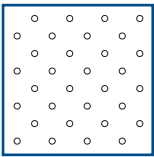

All metal ceiling panels and associated suspension systems are made entirely of noncombustible materials and meet all known code requirements.
