

PRODUCT DATA SHEET

WALL SYSTEM VALE

VALE

The VALE system is a high strength, narrow profile wall slat with a distinct vertical fin look. With various profiles available, the VALE can be combined with other wall systems to provide spectacular and unique results with easy installation.

FEATURES

- Comes in varioius baffle profiles
- Can be incorporated with other wall systems to cover substrate
- Unique metal fin look
- Different colors and finishes available

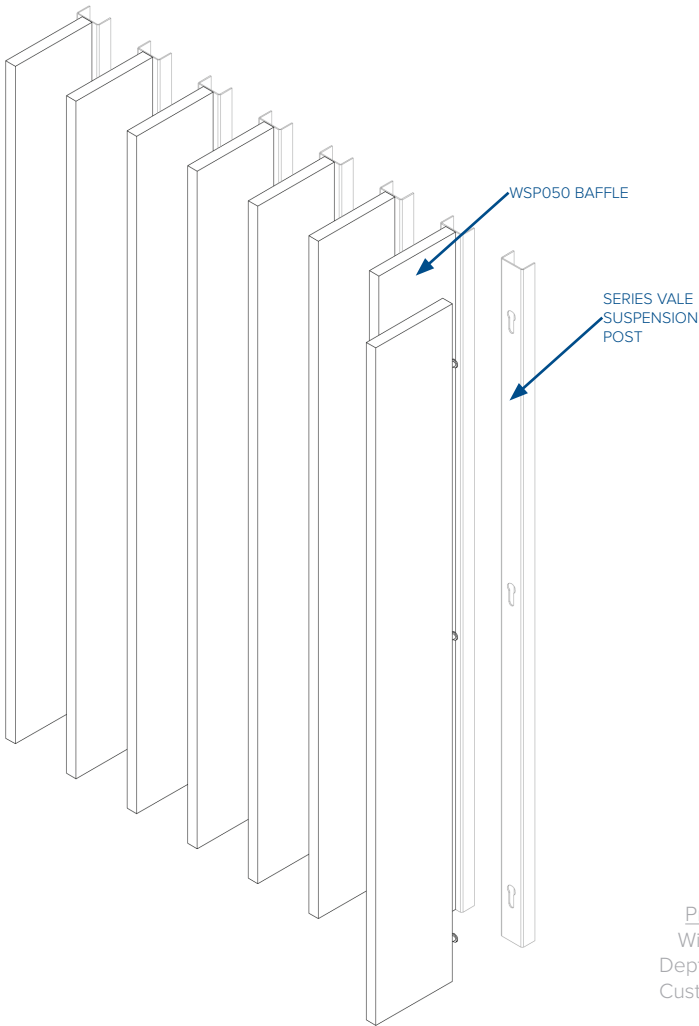

BENEFITS

- Easy installation and replacement of panels
- Multiple profiles can be used to give depth to the system
- Cost-saving labor with non-progressive installation

FIRE RATING

All metal wall panels and associated suspension systems are made entirely of noncombustible materials and meet all known code requirements.
